Subject index

Application of fibre optic technology in communications networks, 199

Book reviews, 29, 93, 157, 217
BORIS, 108

C as a systems programming language, 130
CAD/CAM software and application: IUSC workshop, 117
CAL materials, 45
Computer-aided critical path analysis, 101
Computer algebra support post, 197
Computer-assisted reading, 37
Computer-based learning, 25
Computer-based training, 20
Computer Board Forum, 54, 211
Computer Board news, 121, 188
Computer centres — next decade, 144
Computing facilities in MRC, 87
Computers in teaching, 177
Computer Service news, 123, 182, 239
Computers in Teaching, 52
Conference of Professors of Computer Science, 214
Creation and marketing of BEST database, 15

Editorial Board: Annual Report, 232
Exchange of educational software, 140

Famulus redivivus — case history in software development, 148

Information across JANET, 73
Installation techniques in fibre optics, 66
